Based on the information you provided in your NOI, you are subject to monitoring and subsequent reporting requirements. A summary of your monitoring requirements are provided below. Remember to review Part 9 of the MSGP 2007 to determine if you have additional state or tribal requirements (www.epa.gov/npdes/msgp). You may view and download monitoring guidance, including A Stormwater Sampling Guide for Industrial Facilities, at <http://www.epa.gov/npdes/msgp>. You may also now submit your monitoring results using the EPA's eReporting system at http://cdx.epa.gov/epa_home.asp.

You are also required to submit an annual report to EPA (see Part 7.2 of the MSGP). This report will contain the findings from your comprehensive site inspection, including a discussion of any corrective actions required during the reporting period. You will also need to submit an Exceedance Report to EPA if follow-up monitoring exceeds your effluent limitation guideline-based effluent limits (see Part 7.3), as well as any additional reports required under this permit (see Part 7.4).
